

Ink Mill Corporation

Industrial Inkjet Ink and Fluids

Ink Mill Brand Industrial Inkjet Ink

Custom Colors – Ink Mill is able to manufacture any color you need and manufacture it consistently. Everything from Pantones to Brown, Orange, Green, Purple, the list is endless.

Exceptional Characteristics – Our special formulated inks have improved scratch resistance, reduced "tire-tracking", increased outdoor durability, and improved pricing over the OEM inks.

Service – We can package our ink anyway you like, by the liter, gallon, bag, or cartridges. We can also privately label the ink for you.

Solvent, UV, or LED? – With our experience and years in the inkjet industry, we can help you make the right choice for your set of applications.

Specialty Applications – We have been able to work with companies from various backgrounds to integrate inkjet into their manufacturing processes. This experience leads us to believe that inkjet can do just about anything. Ask a representative about our experience and how we can help.

Custom Industrial Fluids – Ink Mill has also developed a line of inkjet cleaning fluids for industrial applications, as well as adhesion promoters to various substrates.

Questions – Please contact Ink Mill directly or ask one of our distributors.

EXPERIENCE

Ink Mill's engineers and lab technicians have over 30 years of experience developing and manufacturing inkjet OEM inks. This experience allows us to understand the characteristics of the ink and printers.

QUALITY

Ink Mill has tighter specifications on the ink than that of the OEM ink. We also spend a considerable amount of time finding the best materials and making sure that those chemicals are consistent from batch to batch.

CUSTOMER SERVICE

At Ink Mill we believe in helping our customers and in return our customers will help us. Our service is unmatched in the industry. We can help you do just about anything all you have to do is ask.
